

**KBDID:** 166W

**Description:** UK Extended

**Status:** Registered

**National Layout:** Yes

**Regions:** United Kingdom

**Registration Date:** 2006-01-09

**Last Revision Date:** 2006-08-02

**Notes:**

1) This layout is based on the Microsoft United Kingdom (U.K.) Extended keyboard for Windows XP (Service Pack 2) as of October 2005. Reference URL is <http://www.microsoft.com/globaldev/reference/keyboards.msp>. In Jan 9, 2006, Dr. Jeremy Evas (Leader - Research and Grants Unit of the Welsh Language Board) confirmed that this layout meets all the requirements of Welsh.

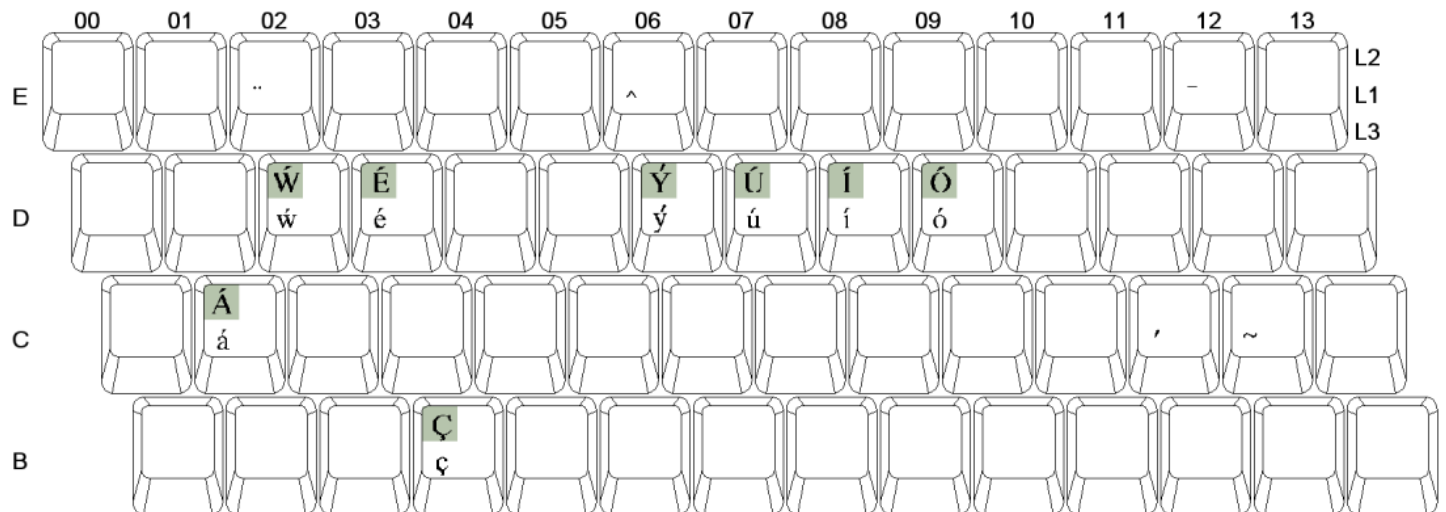

2) This corresponds to the Welsh layer of the MS U.K. Extended keyboard and contains characters that are accessible via the AltGr and Shift-AltGr modes.

3) This is to be used together with KBD166 (for the U.K., Ireland and HongKong S.A.R.). KBD166 is identical to the Group 1 (Latin) layer of the MS U.K. Extended keyboard layout.

4) The Macron (GCGID SD31 or U+00AF) was added to this layout as a dead key at key location E12-L1 to provide support for Cornish.

5) This layout was updated in August 2, 2006 to remove two characters -- the Broken Vertical Line (GCGID SM65 or U+00A6) in location E00-L1 and the Euro Sign (GCGID SC20 or U+20AC) in location E04-L1. These characters can be accessed in KBD166 with the Broken Vertical Line (SM65) located in B00-L2 and the Euro Sign (SC20) located in E04-L3.

## 166W - UK Extended/WELSH (Microsoft)

GLYPH	ROW	COL	LEVEL	IBM ID	DEAD KEY	NOT ENGRAVED	CHARACTER NAME	UNICODE ID
